## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim 1-7, drawn to a method for making beadlets of fat-soluble substances in a water-soluble or water-dispersible matrix.

Group II, claim 8, drawn to an apparatus comprising two cones, a rotating inlet tube with an atomizer and a circular inlet tube.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the invention of group I does not require the cones or inlet tubes required by the invention of group II, and the invention of group II does not require the fat-soluble substances or the dryer required by the invention of group I.
